## 2. Data Cleaning & Transformation

- **Products** Table :
  - column « category » => **FILL DOWN** on « null » values with « Mix »
  - column « price » => **SPLIT** to « currency » and « price value »
- **Geography** Table :
  - **DELETE** the 2 first rows
  - 3rd **Row As Header**
- **Manufacturer** Table :
  - **TRANSPOSE** table
  - 1st **Row As Header**
- **Sales** Table :
  - **COMBINE**, append « internationale Sales » table to « Sales »
  - column « country » **REPLACE** null by « USA »

### 3. Exploratory Data Analysis (EDA)

- Getting some statistics on « Revenue » column from **Sales** table

Total Revenue

695.23M

13.91

Min of Revenue

43.19K

Max of Revenue

313.59

Standard deviation of Revenue

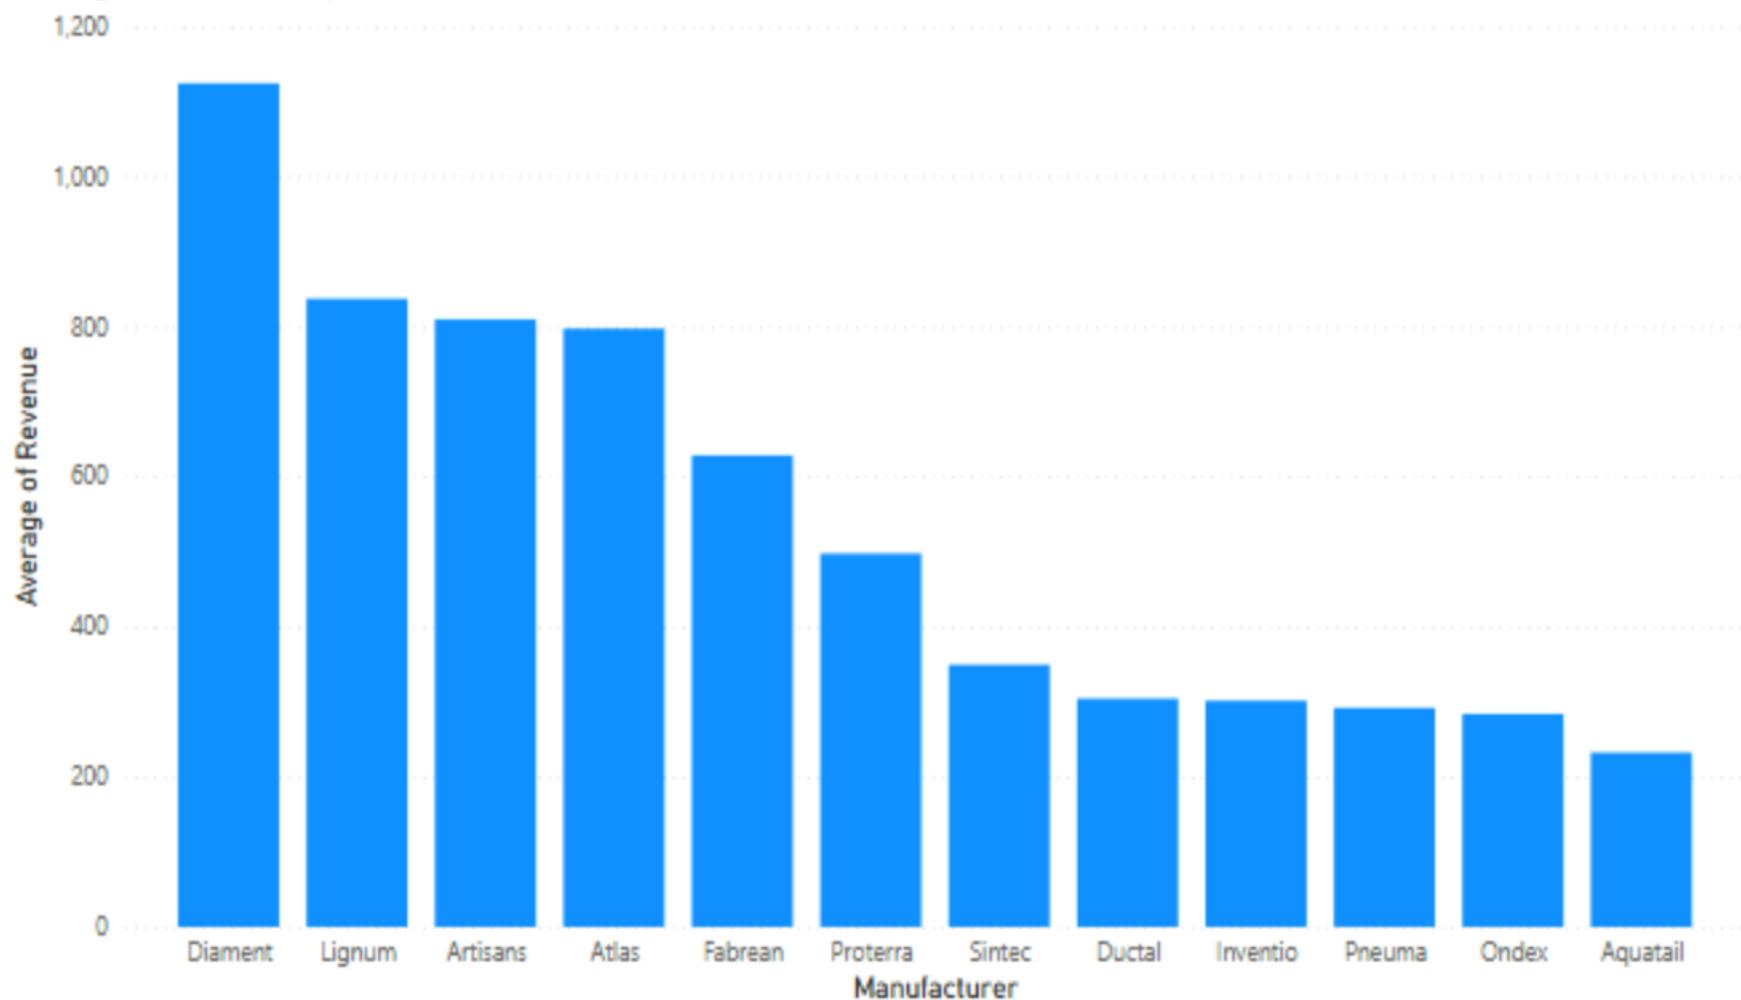

323.14

Median of Revenue

386.64

Average of Revenue

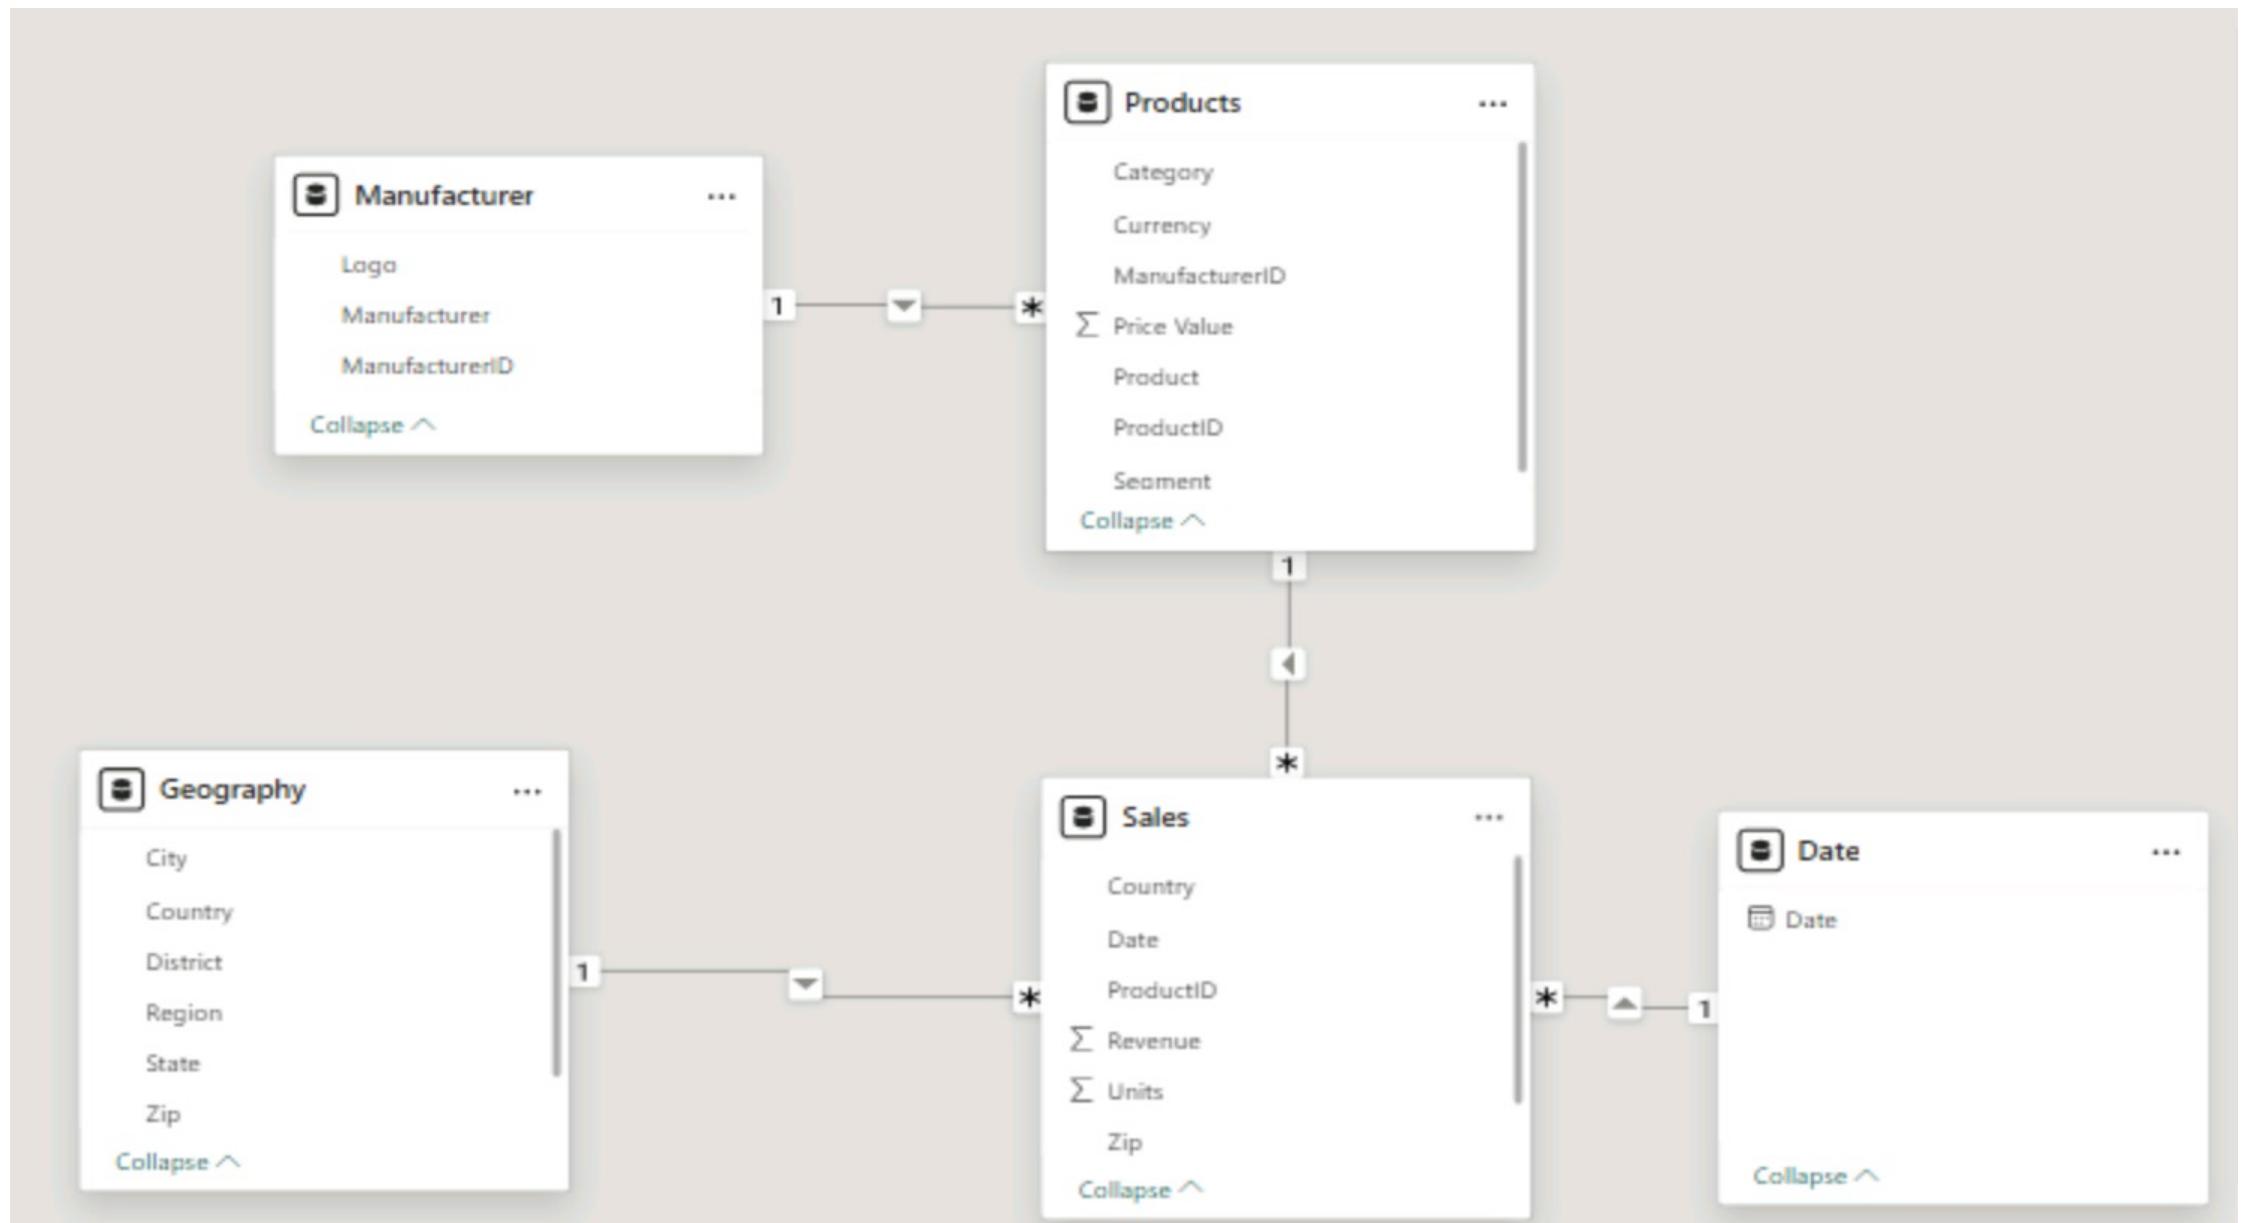

Average of Revenue by Manufacturer

## 4. Data Modeling

- Create **relationship** between « Geography » table and « Sales » table
- column creation on « Geography » with concatenation of « Zip » and « Country »
- column creation on « Sales » with concatenation of « Zip » and « Country »
  
- Create table **Date** and **relationship** with « Sales » table:
- Date table creation with function CALENDAR()

```
Geography[ZipCountry] = Geography[Zip] & "," & Geography[Country]
Sales[ZipCountry] = Sales[Zip] & "," & Sales[Country]
Date = CALENDAR(DATE(2017,1,1), DATE(2021,12,31))
```

Model view with relationships between tables

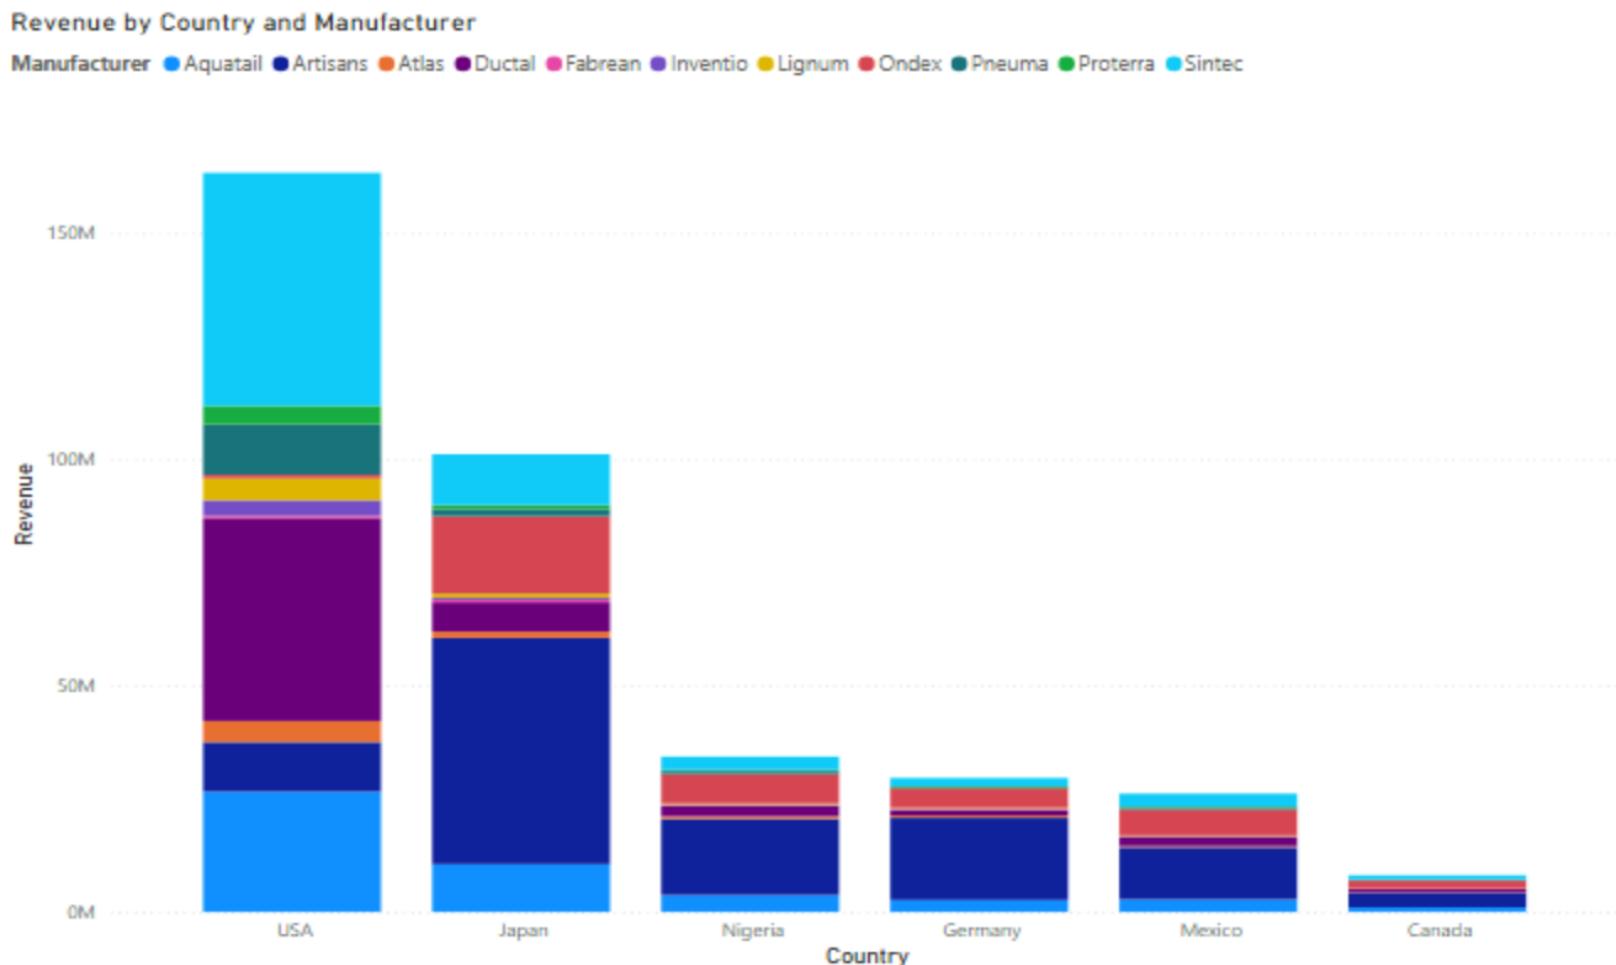

## 5. KPI definition and calculation

Identification of business insights & KPIs :

- Who are the **TOP competitors** generating the most revenue ?
- Who are the best performing category, segments and products ?
- What is the **growth** over time ?
- How are the sales **revenue** compared to previous year ?

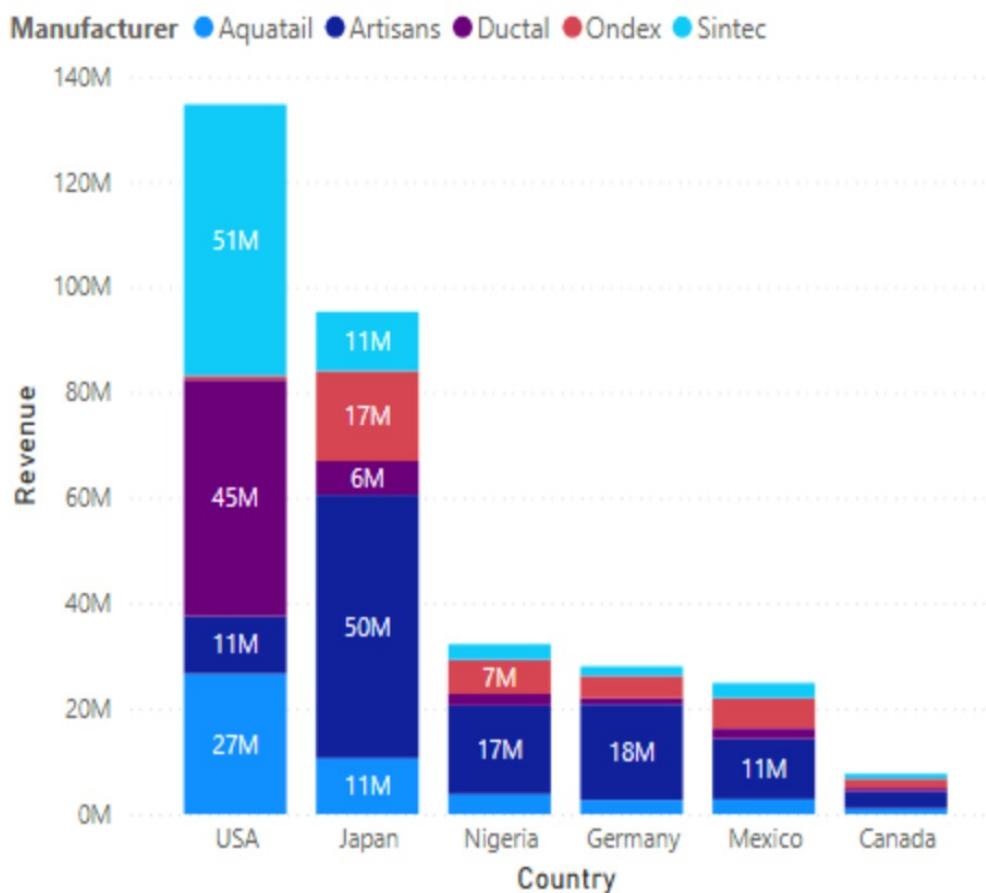

## 5.1 TOP N Analysis

Objective : Finding the **TOP 5** manufacturers by revenue in the market

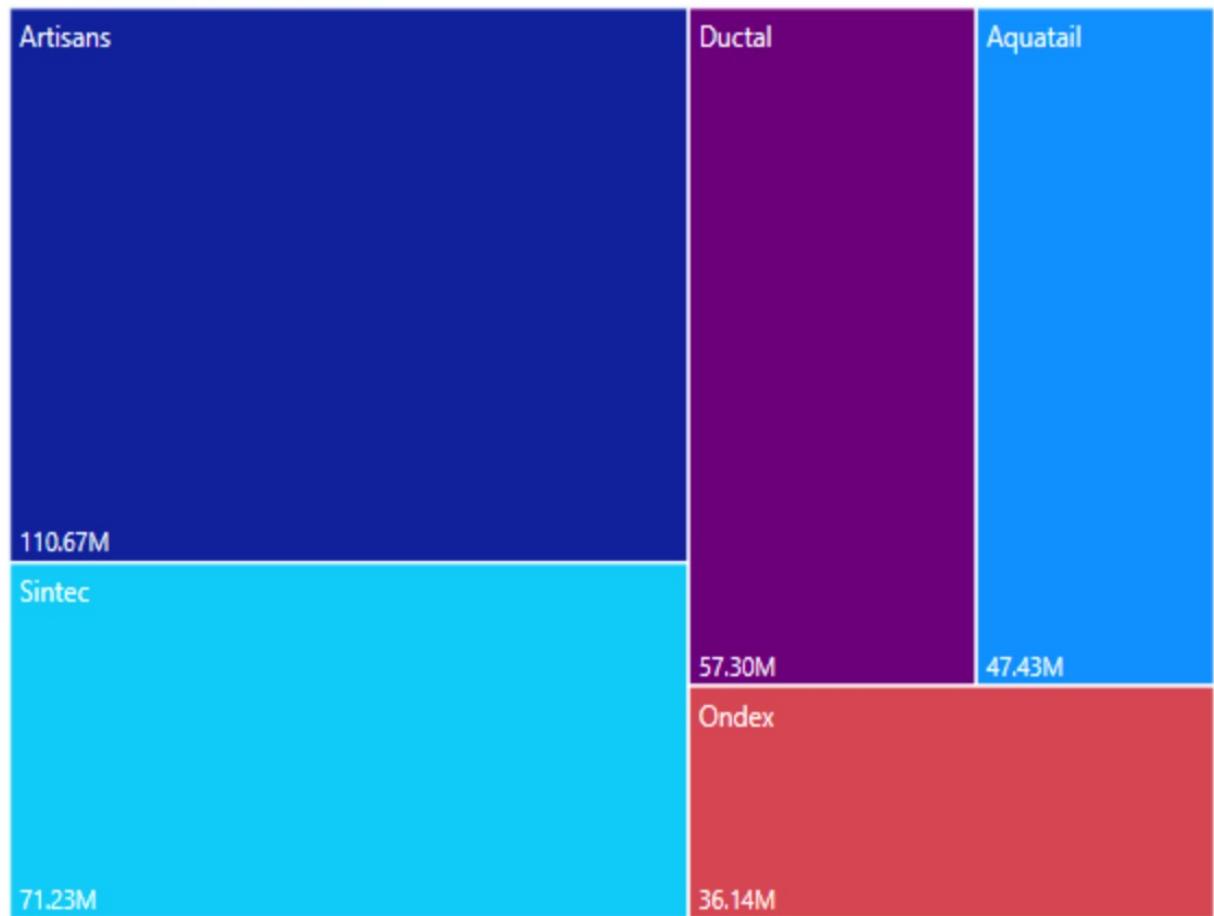

## 5.1 TOP N Analysis

Revenue by Country and Manufacturer

Revenue by Manufacturer

Market highly concentrated, with the TOP 5 manufacturers generating a significant share of total revenue. It suggests a strong competitive advantages for market leaders.

## 5.2 Growth and PY Sales

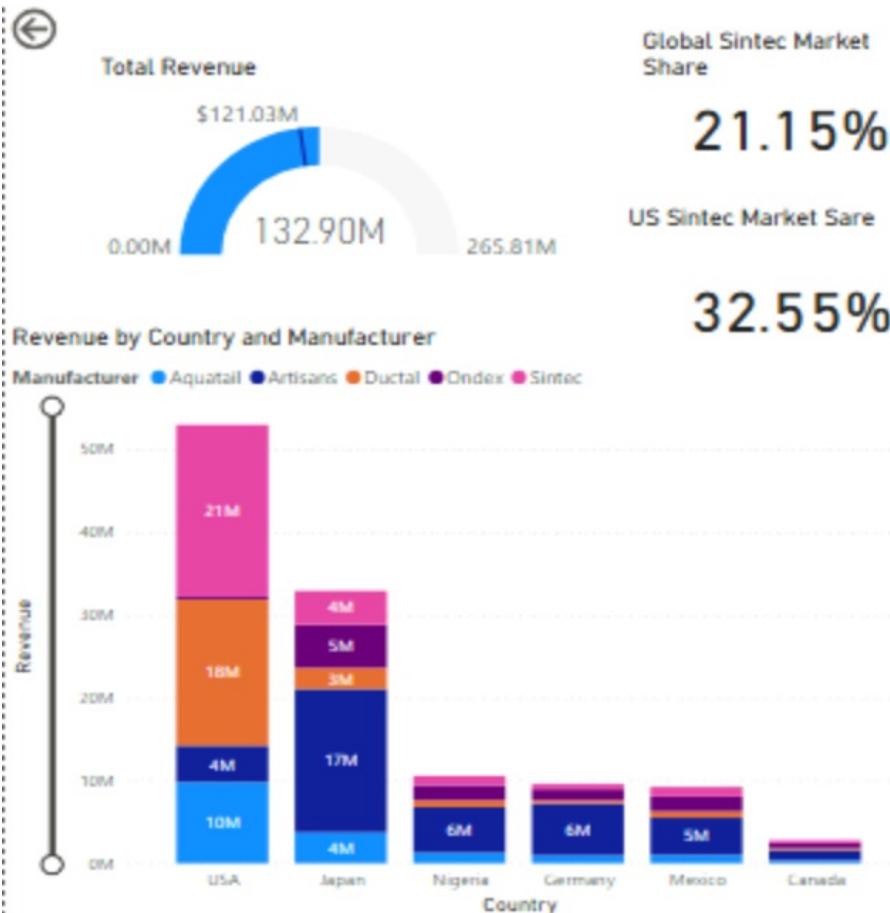

Objective : Finding the **%growth** from previous year, finding the **most performing** category and segment

Category	Revenue	PY Sales	% Growth	%GT Revenue
■ <b>Mix</b>	<b>8,395,722.52</b>	<b>\$5,151,566.12</b>	<b>62.97%</b>	<b>2.31%</b>
⊕ All Season	7,552,582.76	\$4,459,024.68	69.38%	2.08%
⊕ Extreme	4,198.96			0.00%
⊕ Productivity	838,940.81	\$692,541.44	21.14%	0.23%

## 5.3 Key influencers and market segments

Objective : Finding the most competitive segments and products in the market

# Which products influence the market ?

**Key influencers** Top segments

What influences Revenue to Increase ?

When... ....the average of Revenue increases by

Product is Lignum UC-24	786.8
Product is Maximus UM-80	674.4
Product is Ondex UM-10	626.6

← Revenue is more likely to increase when Product is Lignum UC-24 than otherwise (on average).

Only show values that are influencers

**Key influencers** Top segments

What influences Revenue to Increase ?

When... ....the average of Revenue increases by

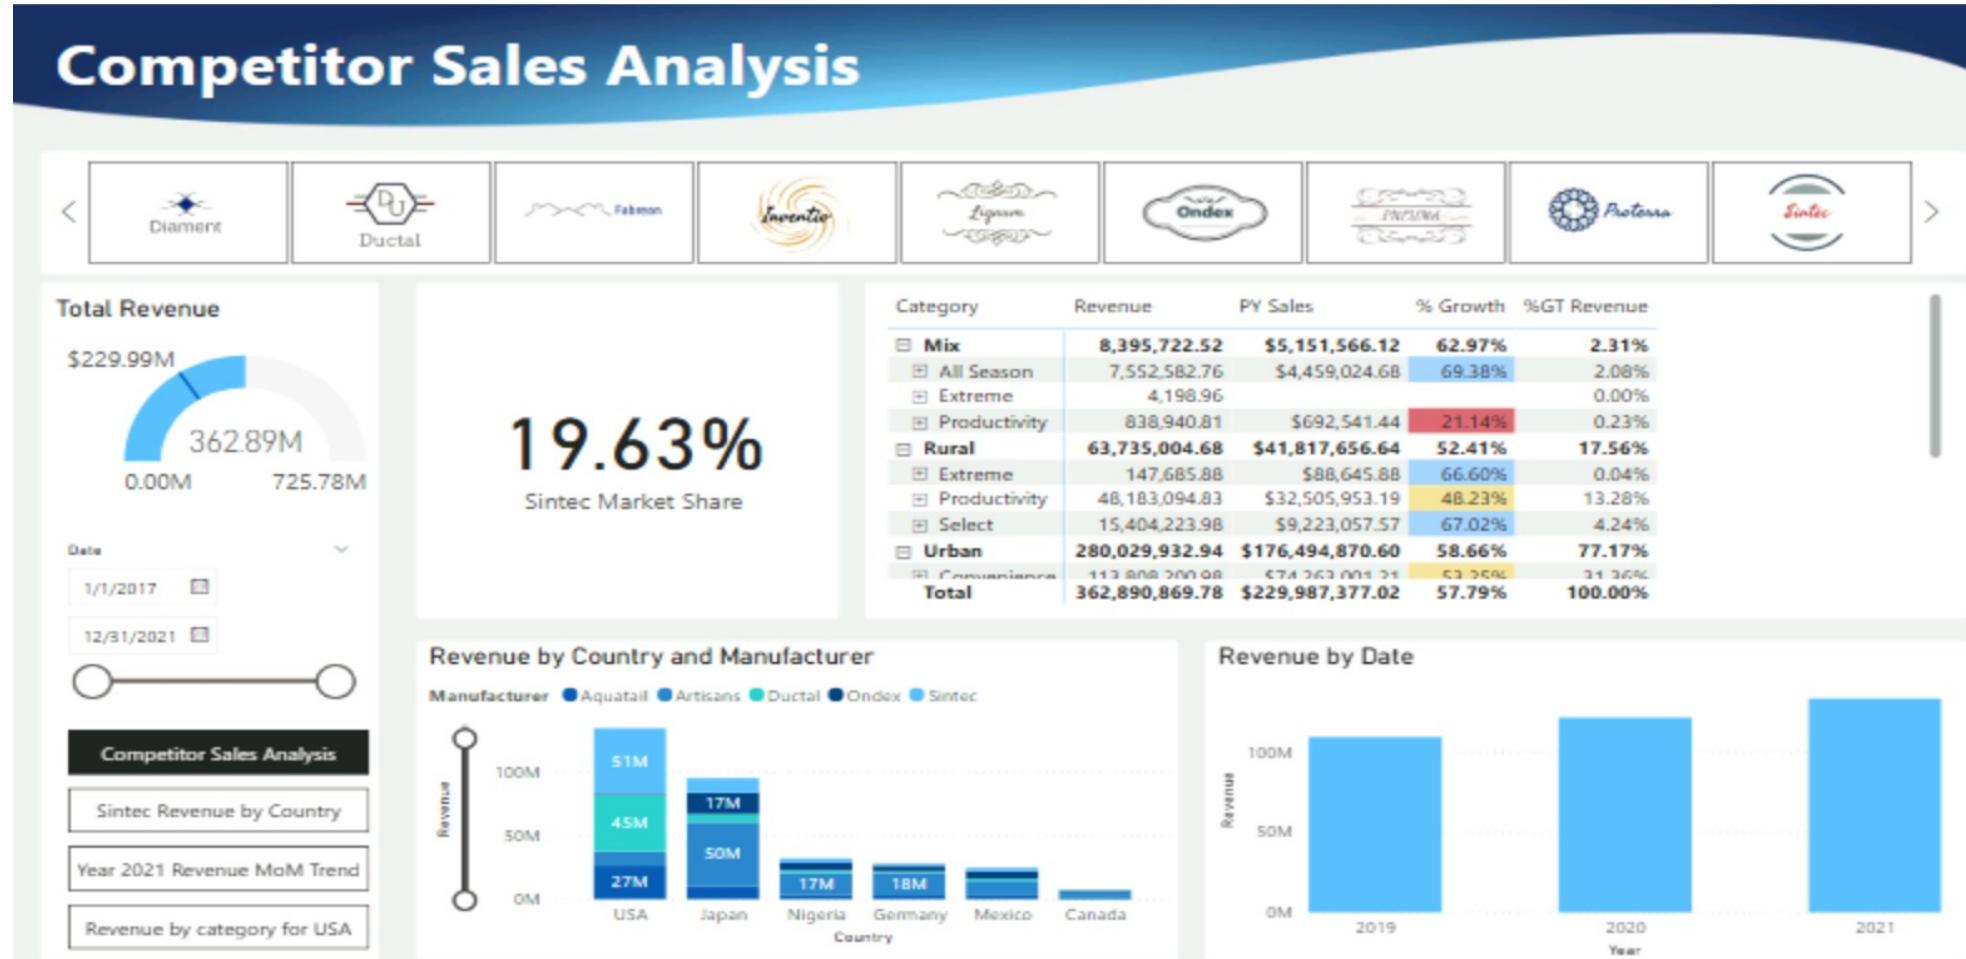

Product is Lignum U	Product Maximus UM-80
Average of Revenue	1,073.76
Count of Sales	11180

← Revenue is more likely to increase when Product is Maximus UM-80 than otherwise (on average).

Only show values that are influencers

# 6. Visualization, Dashboard creation

Objective : Exposing clearly business insights on an interactive dashboard

*First page of the dashboard, the global view on the market*

# Advanced Insights

% Growth

## Category Distribution

## Key influencers Top segments

What influences Revenue to  ?

When... the average of Revenue increases by

Product is Lignum UC-24

786.8

Product is Maximus UM-80

674.4

Product is Ondex UM-10

626.6

← Revenue is more likely to increase when Product is Lignum UC-24 than otherwise (on average).

 Only show values that are influencers

Revenue Increased the most (by \$18.37) when Manufacturer was Artisans. 2 other factors also caused Revenue to increase, explore them in the key influencers visual.

Second page of the dashboard, insights, key influencers in the market

# Conclusion & Recommendations

## Key Takeaways

- The market is **highly concentrated**, with a small number of manufacturers driving most of the revenue.
- Strong **year-over-year growth (+57.8%)** indicates a dynamic and expanding market.
- Revenue is largely driven by the **Urban** category and the **Convenience** segment.
- **Sintec** stands out as the market leader in the US.
- A limited set of products and segments have a **disproportionate influence** on market performance.

## Business Recommendations

- **Monitor** top competitors closely, especially market leaders, to anticipate strategic moves.
- Use **historical growth trends** to support investment and expansion decisions.
- Prioritize **high-performing categories and segments** (Urban / Convenience) to maximize ROI.
- Leverage **key products as growth drivers** and focus resources on high-impact offerings.
- Continuously track KPIs to **detect early market shifts and competitive threats**.
