🚗 Driving license (category B)

SKILLS

Computer Science

Data Analysis and Manipulation :
Excel, SQL (MySQL, PostgreSQL)
Python (Pandas)

Quality & Transformation (ELT/ETL) :
DBT (Data Build Tool)

Data Visualization / BI :
Power BI (dashboards, DAX)
Data storytelling & reporting

Project Management :
Agile SCRUM methodology, Git, Jira

Programming:
C, JAVA (J2EE), PHP, JavaScript, HTML5, CSS3, Bash

Tools, Platforms & Cloud:
Windows, Linux, Mac OS, Visual Studio Code, Microsoft Office, Google Cloud Platform BigQuery

Languages

English : Fluent (5 years abroad)

Spanish : Intermediate

Creativity

Music and video editing : Ableton Live, Recordbox, Traktor, Adobe Premiere Pro

Analytics Engineer

« BI Analytics Engineer trained in modern ELT methodologies (dbt, SQL, BigQuery) and data visualization using Power BI. Former Software Engineer with international experience, combining strong technical rigor and business understanding to transform data into actionable insights that drive informed decision-making. »

Professional Experience

Data & Finance Project - Performance & Risk Simulation, *February 2026*

Developed an end-to-end financial analytics solution for an SME (café/bakery – 2022/2023). Monitored key KPIs, performed seasonality analysis, anticipated financial risks, and conducted stress testing to support strategic decision-making

Data Analytics Project - Delivery Delays & Customer Satisfaction, *January 2026*

- Built clean, analytics-ready datasets with dbt (SQL) on Google BigQuery
- Designed KPIs and Power BI dashboards to monitor delivery delays and customer satisfaction
- Translated data into clear insights and actionable recommendations for business stakeholders

5 years International Experience - Working Holiday Visa - Canada, New Zealand, *July 2019 to February 2024*

Roles in hospitality, events and ski resorts / communication, autonomy, stress management in a daily English-speaking environment

Software Engineer - Grade B - Capgemini Technology Services - Rennes (France), *March 2016 to March 2019*

- Technical leadership of a development team and enhancement of a web portal for social housing management.
- Application maintenance (TMA) for a cinema voucher service: KPI monitoring, incident resolution, functional improvements
- Design of an IoT portal : functional analysis, client interactions, DevOps and Agile practices

Internship - Website development for the Customer Testing Center (CTC) - Orange Business - Rennes(France), *May 2015 to August 2015*

Defined technical and functional specifications, mockups creation, web development and collaboration with cross-functional teams

Education

Data Track - DataCamp.co, *since August 2025*
Data collection, transformation and cleaning, Exploratory Data Analyse (EDA), Data modeling and governance, visualization (BI/dashboards)

Master's Degree (MSc) in MIAGE - Honors, *September 2013 to August 2016*
ISTIC - University of Rennes 1, France

University Diploma in Computer Science (Software Engineering), *September 2011 to June 2013*
IUT of Lannion, France

Interests

DJing : mix and music production
Travel : roadtrips, backpacking and volunteering (+ 10 countries visited in 5 years)
Sports : Surfing, Skiing, Snowboarding
Well-being : Yoga, Reiki, Meditation
